HOUSECAB™

Housecab Solutions Pvt. Ltd.

At Housecab Solutions Pvt. Ltd., we are redefining the future of cable manufacturing with a commitment to quality, innovation and customer satisfaction. As a leading manufacturer of high-performance electrical, power and communication cables, we cater to a wide range of industrial and residential needs. Founded with a vision to deliver reliable and cutting-edge cable solutions, we take pride in offering products that are not only durable but also adhere to the highest standards of safety and efficiency. Under the leadership of our CEO, Mr. Ganesh Anandrao Barge, we continue to grow and evolve, delivering unparalleled cable solutions that power homes, businesses and industries across India.

Housecab Solutions Pvt. Ltd. is a Limited Company (Ltd./Pvt. Ltd.) registered under the legal framework of India. Our strong financial standing, with an annual turnover of Rs. 1 - 2 Crore, reflects our continued growth and success in the cable manufacturing industry. We aim to expand our business further through strategic growth and by offering innovative products that cater to evolving market needs.

At Housecab Solutions Pvt. Ltd., quality is at the forefront of everything we do. We follow strict quality control processes at every stage of production, from the selection of raw materials to final product inspection. Our cables undergo rigorous testing to ensure they adhere to national and international standards. As a result, our products are not only reliable but also safe, offering peace of mind to our clients.

HOUSECAB™

About Us

Housecab Solutions Pvt. Ltd. is a trusted and innovative manufacturer specializing in high-quality cables for a wide range of industrial and residential applications. Established in 2015 with a vision to provide top-notch cable solutions, we are dedicated to ensuring that our products meet the highest standards of safety, durability and performance.

Headquartered in Koregaon MIDC - Satara, Housecab Solutions Pvt. Ltd. operates with the aim of transforming the cable manufacturing industry through innovation, quality assurance and customer satisfaction. Led by our visionary CEO, Mr. Ganesh Anandrao Barge, we have consistently expanded our product offerings and service capabilities, making us one of the leading names in the cable manufacturing sector.

HOUSECAB™

Our Vision

At Housecab Solutions Pvt. Ltd., our vision is to lead the cable manufacturing industry globally, offering innovative, high-quality, and safe cable solutions. We aim to set new industry benchmarks for performance, safety and sustainability while empowering businesses and homes worldwide.

Our Mission

At Housecab Solutions Pvt. Ltd., our mission is to deliver high-quality, innovative and sustainable cable solutions. We focus on customer satisfaction, technological advancements, and eco-friendly practices, aiming to build lasting partnerships and lead globally in reliability and innovation.

HOUSECAB™

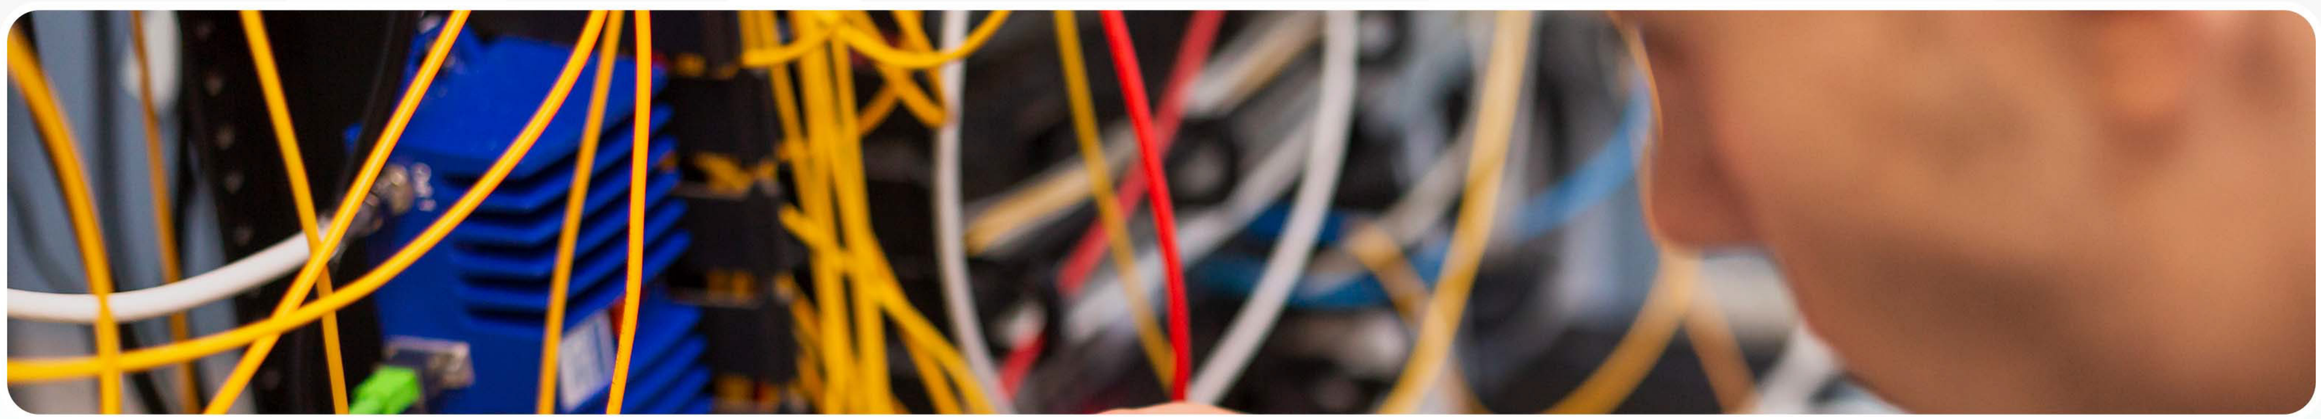

Products

1. House Wires

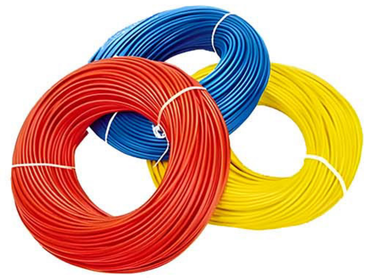

(As per - IS:694:2010)

Our House Wires are specifically designed for safe and efficient electrical wiring for use in outdoor as well as indoor (domestic application). These wires are made with high-quality copper conductors and have excellent insulation properties, ensuring safety and durability. Whether for new constructions or renovation projects, our house wires provide a reliable solution for lighting, appliances and power circuits. With various sizes and specifications, our house wires are ideal for residential electrical installations and conform to the highest industry standards.

HOUSECAB™

1. House Wires

Key Features:

- **Safe, Insulated Wires Ideal for Residential Wiring**

  Housecab house wires offer superior insulation for safety, preventing faults, fires and wear in residential electrical systems.

- **High-quality Copper Conductors for Better Conductivity**

  Housecab house wires with high-quality copper conductors ensure efficient, reliable power transmission and long-lasting performance.

- **Available in Multiple Sizes for Various Applications**

  Housecab offers house wires in various sizes for lighting, outlets and appliances, ensuring safe, optimal power distribution in homes.

- **Flexible and Easy to Install in Homes and Buildings**

  Housecab's flexible house wires make installation easy and quick, bending smoothly through tight spaces for hassle-free wiring.

Benefits:

- **Safe and Reliable**

  Housecab's house wires offer superior safety, with durable insulation to prevent faults, shocks and fire hazards for reliable performance.

- **Easy Installation**

  Housecab's house wires are flexible, easy to install and safe, making them perfect for both pros and DIY electrical projects.

- **Durability**

  HouseCab house wires offer durability, safety and reliable performance, with high-quality materials and advanced insulation for long-term use.

- **Energy Efficiency**

  HouseCab house wires ensure energy efficiency with minimal resistance, reducing power loss, lowering bills and supporting sustainability.

- **Compliance with Standards**

  HouseCab house wires meet top safety standards, ensuring reliable, compliant installations that reduce electrical hazards and ensure peace of mind.

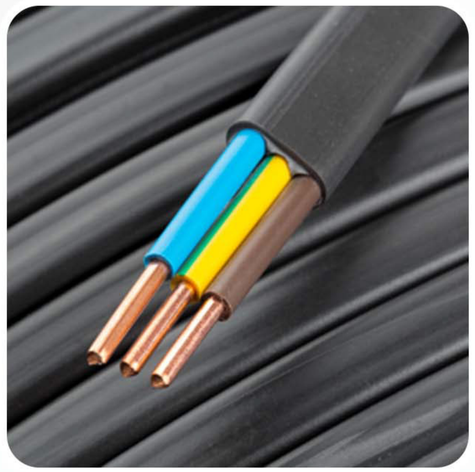

HOUSECAB™

Products

At **Housecab Solutions Pvt. Ltd.,** we offer a wide range of high-quality cables that cater to diverse needs in residential, commercial and industrial sectors. Our products are crafted with precision, using the latest manufacturing technologies and premium materials to ensure long-lasting performance, safety and reliability. Below is an overview of our key product offerings:

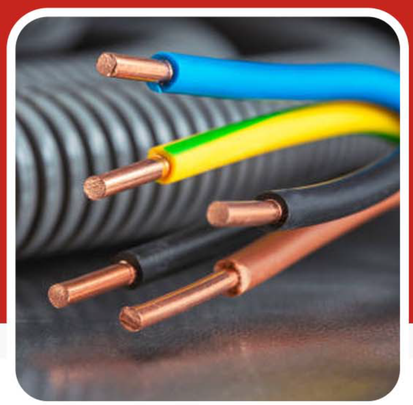

2. Submersible / Flat Cables & Cords

(As per - IS:694:2010)

Our Submersible Cables are specially designed for use in bore wells, water pumps and other submerged applications where durability and water resistance are essential. These cables are made with high-grade insulation that protects against moisture, oil and other environmental factors. Sutaible for outdoor. They are engineered to operate under harsh conditions, ensuring long-term reliability and superior performance. Whether for agricultural or industrial pumping systems, our submersible cables are the go-to solution for secure and efficient power transmission.

HOUSECAB™

2. Submersible / Flat Cables & Cords

Key Features:

- **Water-resistant and Corrosion-proof Insulation**

  Housecab Solutions Pvt. Ltd. offers submersible cables with water-resistant, corrosion-proof insulation for safe, reliable performance in harsh environments.

- **High Voltage Resistance for Safe Operation**

  Housecab Solutions Pvt. Ltd. ensures safe, high-voltage resistant submersible cables for reliable performance in demanding applications.

- **Flexible and Durable, Ideal for Submersible Applications**

  Housecab Solutions Pvt. Ltd. offers flexible, durable submersible cables, ideal for reliable, long-term performance in challenging underwater environments.

- **Suitable for Use in Deep Wells and Harsh Environments**

  Housecab Solutions Pvt. Ltd. offers durable submersible cables designed for deep wells and harsh environments, ensuring reliable, long-term performance.

Benefits:

- **Engineered for Excellence**

  Housecab submersible cables offer water resistance, corrosion protection, flexibility and durability for reliable, long-term performance in harsh environments.

- **Enhanced Durability**

  Housecab submersible cables are durable, corrosion-resistant, flexible and designed for reliable, long-lasting performance in harsh, submerged conditions.

- **Reliable Power Supply**

  Housecab submersible cables provide reliable power in harsh submerged environments, with corrosion resistance, flexibility and durability for long-term use.

- **Safe Operation**

  Housecab submersible cables offer safe, reliable performance in demanding underwater conditions with corrosion resistance, flexibility and durability.

HOUSECAB™

Products

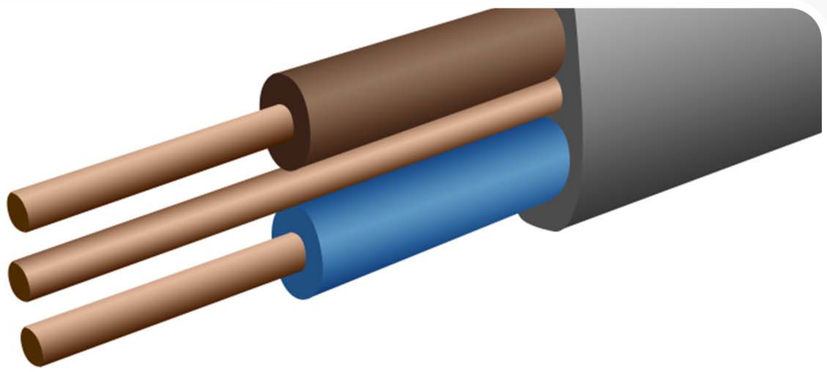

3.Flat Cable - Twin Core Aluminium

(As per - IS:694:2010)

Our Flat Cables - Twin Core are versatile and designed for applications where space-saving and flexibility are key. These cables are widely used for low-voltage power transmission in homes, offices and various electronic appliances. The twin-core design makes them perfect for residential wiring, allowing for easy installation and reduced clutter. Made with high-quality copper conductors and a durable outer sheath, these cables are built to withstand everyday use and deliver reliable performance.

HOUSECAB™

3.Flat Cable - Twin Core Aluminium

Key Features:

- **Compact, Space-saving Design**

  Housecab flat twin-core cables offer a space-saving design, ideal for tight installations in residential, commercial, or industrial settings.

- **Twin-core Construction for Versatile Applications**

  Housecab flat twin-core cables offer versatile, reliable performance for lighting, appliances and low-power electrical systems.

- **Durable Insulation for Safety and Longevity**

  Housecab flat twin-core cables feature durable insulation, ensuring safety, longevity and reliable performance in various electrical systems.

- **Flat Design**

  Housecab flat twin-core cables feature a flexible, space-saving design, ideal for easy installation in tight or intricate spaces.

Benefits:

- **Space-Saving Design**

  Housecab flat twin-core cables offer a space-saving, flexible design, perfect for tight installations in residential and commercial spaces.

- **Flexibility and Ease of Installation**

  Housecab flat twin-core cables offer excellent flexibility, easy installation and efficient routing for various residential and commercial applications.

- **Durability and Safety**

  Housecab flat twin-core cables offer durability, safety and reliable performance, with robust insulation for long-lasting, safe operation.

- **Cost-Effective**

  Housecab flat twin-core cables offer cost-effective, durable solutions with easy installation, reducing maintenance and labor costs.

HOUSECAB™

Products

4. Control & Power Cable

(As per - IS:1554 Part 1 - 1988, IS:7098 Part 1 - 1988)

Our Power Cables are designed for the efficient transmission of electrical power across long distances. These cables are ideal for use in industrial plants, power distribution networks and commercial buildings. Manufactured with high-quality conductors and robust insulation, our power cables ensure minimal power loss and maximum efficiency, even in challenging environmental conditions. Available in a variety of sizes and configurations, they can be customized to meet specific voltage and load requirements.

HOUSECAB™

4. Control & Power Cable

Key Features:

- **High Current Carrying Capacity**

  Housecab power cables offer high current carrying capacity, ensuring reliable, efficient performance for industrial, commercial and residential systems.

- **Excellent Insulation for Safety and Durability**

  Housecab power cables feature durable insulation, ensuring safety, preventing leakage and extending cable life in harsh environments.

- **Resistant to Temperature Fluctuations, Moisture, and Chemicals**

  Housecab power cables are moisture, chemical and temperature resistant, ensuring reliable performance in challenging environments.

- **Available in Different Voltage Ratings and Configurations**

  Housecab power cables come in various voltage ratings and configurations, offering flexible solutions for residential to industrial needs.

Benefits:

- **High Conductivity**

  Housecab power cables feature high conductivity for efficient power transmission, reducing energy loss, heat and maintenance costs.

- **Robust Insulation**

  Housecab power cables feature robust insulation, providing protection against electrical hazards, extreme conditions and wear for long-lasting safety.

- **Versatile Applications**

  Housecab power cables are versatile, reliable, and ideal for residential, commercial and industrial applications, ensuring efficient power delivery.

- **Long Lifespan**

  Housecab power cables offer long-lasting durability, reliable performance and cost-effective solutions with minimal maintenance and replacements.

HOUSECAB™

Products

5. Aerial Bunched Cables (ABC)

(As per - IS:14255:1995)

Aerial Bunched Cables (ABC) are designed for overhead power distribution networks, offering a safe and efficient alternative to traditional open-wire systems. These cables are ideal for urban, rural and semi-urban areas, as they minimize the risk of power theft, reduce line losses, and enhance safety. With a compact and robust construction, ABC are resistant to environmental hazards like wind, rain and pollution. They are widely used for distribution of electricity in areas with limited space or where underground cabling is not feasible.

HOUSECAB™

5. Aerial Bunched Cables (ABC)

Key Features:

- **Compact and Space-efficient Design for Aerial Applications**

  Housecab ABC offer a compact, space-efficient design for overhead power distribution, ideal for urban and high-density areas.

- **Reduced Risk of Power Theft and Accidents**

  Housecab ABC reduce power theft and accidents with tamperature resistant design, enhancing security and safety in overhead installations.

- **High Safety and Reliability in Overhead Power Distribution**

  Housecab ABC offer high safety and reliability, minimizing risks of short circuits, fires and electrocution in overhead systems.

- **Resistant to Weather Conditions such as High Winds and Rain**

  Housecab ABC are built to withstand harsh weather, offering durability against rain, wind and extreme temperatures for reliable power.

Benefits:

- **Space Efficiency**

  Housecab ABC offer a space-saving design, ideal for overhead power in crowded urban and industrial areas with limited space.

- **Safety and Reduced Risks**

  Housecab ABC enhance safety with a bundled, insulated design that reduces shock risks, tampering and damage in power systems.

- **Ideal for Overhead Distribution**

  Housecab ABC offer reliable, space-saving power distribution, with durability against weather and safety in urban, rural and industrial areas.

- **Weather Resistance**

  Housecab ABC are weather-resistant, ensuring reliable performance in extreme conditions, with durable insulation for long-term power distribution.

- **Reduced Power Loss**

  Housecab ABC reduce power loss, improving energy efficiency and lowering operational costs for overhead power distribution.

HOUSECAB™

Products

6.Service Conductors - HT (High Tension)

(As per - IS:398)

Our High Tension (HT) Service conductors are designed for high-voltage power transmission in industrial and commercial environments. These conductors are capable of handling high electrical loads and are used for the connection between transformers and end-user points. Constructed with high-quality materials that ensure safety, reliability and optimal power flow, our HT service wires are built to withstand extreme weather conditions and heavy-duty applications. They are essential for safe and efficient energy distribution in high-tension power networks.

HOUSECAB™

6. Service / Bare Conductors - HT (High Tension)

Key Features:

- **Suitable for High-voltage Transmission**

  Housecab HT service conductors are designed for high-voltage transmission, ensuring safe, reliable and efficient power delivery over long distances.

- **Strong and Durable Construction for Industrial Environments**

  Housecab HT service conductors offer durable, high-performance construction, built to withstand harsh industrial conditions for reliable power transmission.

- **High Safety Standards with Superior Insulation**

  Housecab HT service conductors feature superior insulation for safety, preventing short circuits, overheating and ensuring reliable power transmission.

- **Resistant to Abrasion, Moisture, and UV Rays**

  Housecab HT service conductors are UV, moisture and abrasion-resistant, ensuring long-term durability and reliable performance in tough conditions.

Benefits:

- **High Voltage Capacity**

  Housecab HT service conductors handle high voltages, offering reliable, safe power transmission for industrial and power distribution systems.

- **Enhanced Safety**

  Housecab HT service conductors ensure safe, reliable high-voltage transmission with robust insulation to prevent faults, overheating and hazards.

- **Efficient Power Transmission**

  Housecab HT service conductors ensure efficient power transmission with minimal energy loss, improving system performance and reducing costs.

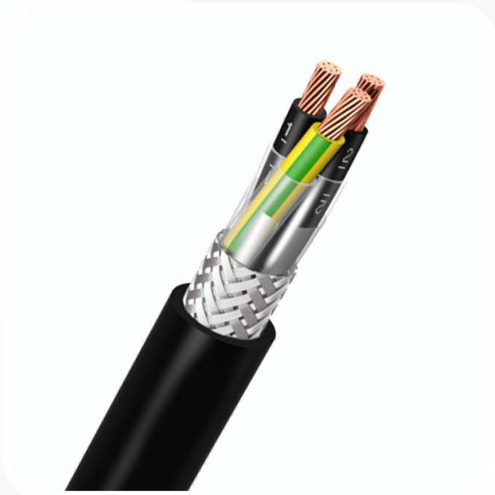

- **Weather and Abrasion Resistant**

  Housecab HT service conductors are weather and abrasion-resistant, ensuring reliable performance in harsh environments with minimal maintenance.

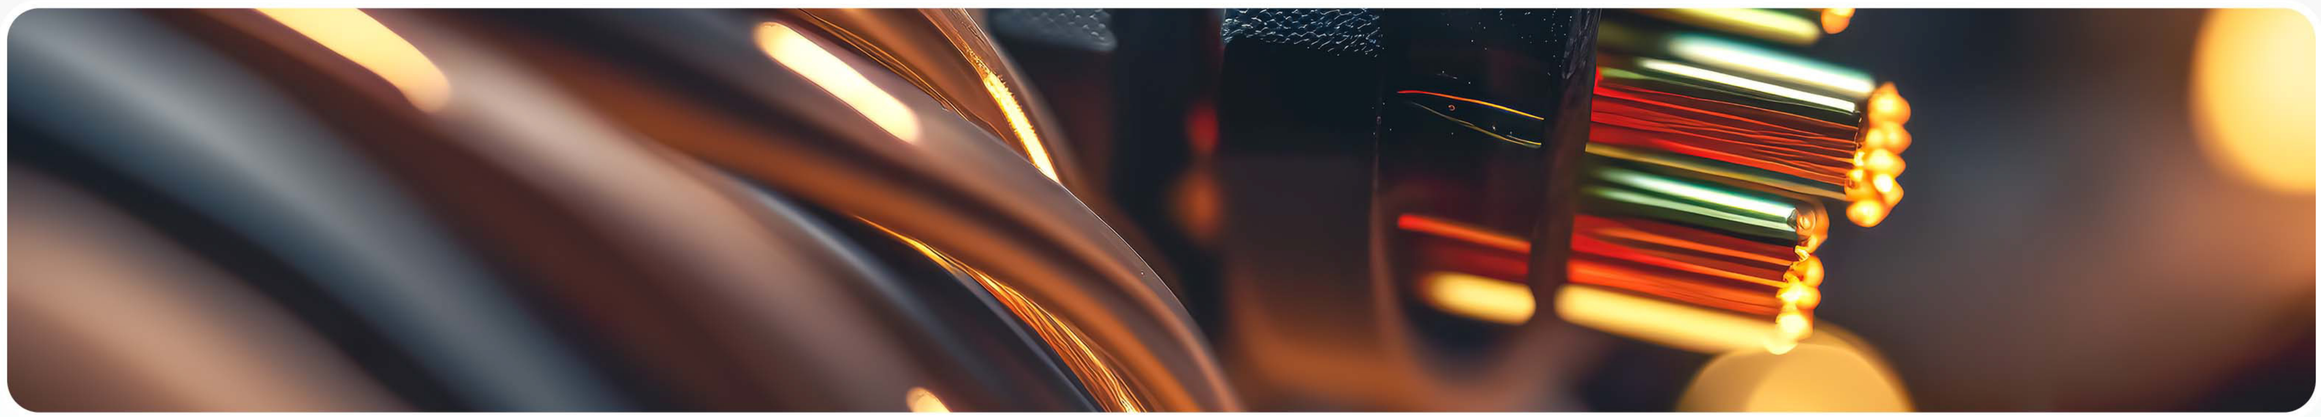

HOUSECAB™

Products

7. UL Certified Cables

Housecab's UL Certified cables are engineered to meet the highest safety and quality standards. UL certification ensures that our cables undergo rigorous testing for electrical, mechanical and environmental durability. These cables provide reliable protection against electrical hazards and fire risks, making them ideal for residential, commercial and industrial applications. Available in various types, including power, control and communication cables, our UL Certified products deliver long-lasting performance and safety in demanding conditions.

HOUSECAB™

7. UL Certified Cables

Key Features:

- **Armoured Construction**
  Steel or aluminum armoring protects cables from physical damage and external impacts.
- **Weatherproof Design**
  Built to resist moisture, temperature fluctuations and UV exposure for outdoor use.
- **Low-Voltage Rating**
  Ideal for power distribution systems with a low voltage rating (up to 1 kV).
- **Superior Insulation**
  High-quality insulation ensures safety against electrical faults and leakage.

Benefits:

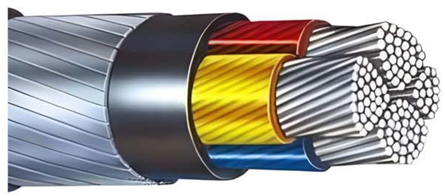

- **Durability**
  Armoring and insulation resist mechanical stress, environmental damage and rodent attacks.
- **Safety**
  Provides reliable protection from electrical faults, short circuits and fire risks.
- **Reliable Power**
  Ensures efficient low-voltage power delivery with minimal loss and consistent performance.
- **Versatile Use**
  Suitable for industrial plants, construction sites and outdoor installations.

HOUSECAB™

Products

8. LT Power Cables

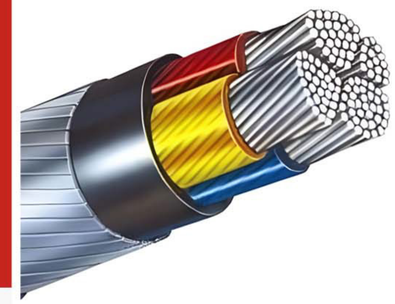

(As per - IS:7098 Part 1 - 1988, IS:1554 Part 1 - 1988)

Housecab's LT Power Cables are designed for safe and efficient low-voltage power transmission. The Armoured construction, using galvanized steel or aluminum, provides added protection against physical damage, weather and rodent attacks. These cables are ideal for both indoor and outdoor installations, offering reliable insulation and optimal power delivery. Perfect for industrial plants, construction sites and power distribution networks, our LT Power Armoured Cables ensure durability and safety in challenging environments.

HOUSECAB™

8. LT Power Cables

Key Features:

- **Rigorous Testing**
  UL Certified for safety, with extensive testing for electrical, mechanical and fire hazards.
- **Wide Range of Options**
  Available in power, control and communication cables to suit diverse needs.
- **High-Quality Materials**
  Made from premium materials for enhanced durability and reliable performance.
- **Safety Compliance**
  Meets strict UL standards for protection against electrical and fire hazards.

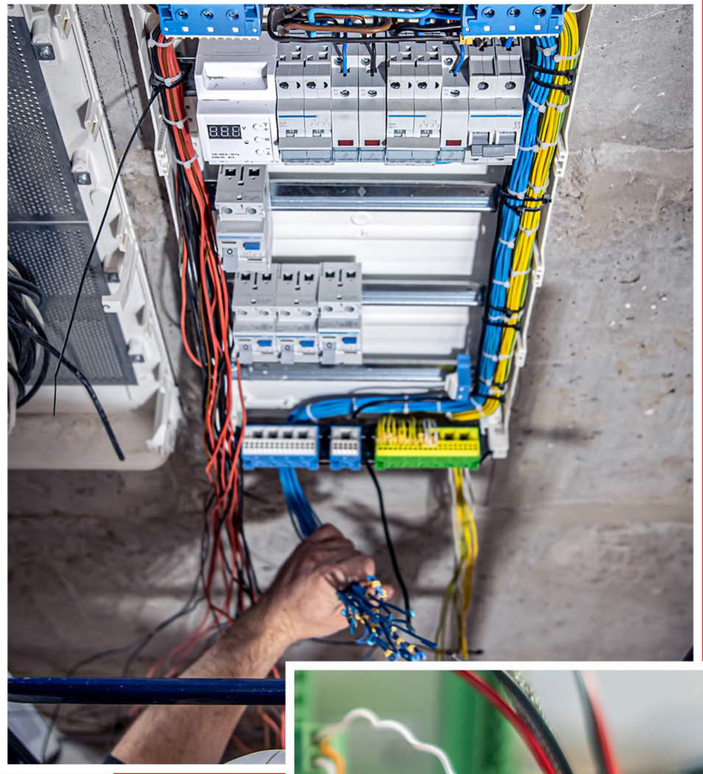

Benefits:

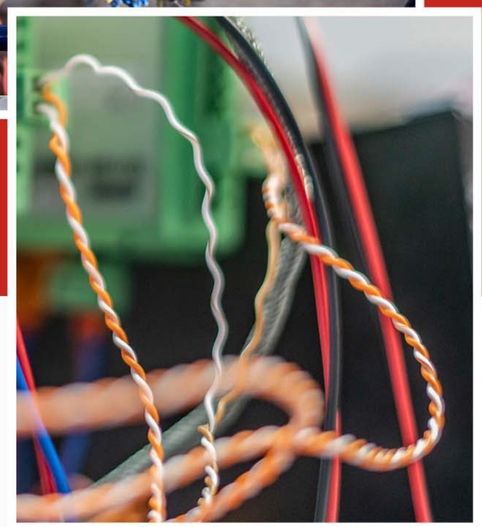

- **Enhanced Safety**
  Reduces risks of fires, short circuits and electrical hazards for safer installations.
- **Peace of Mind**
  UL certification ensures high reliability, suitable for critical residential, commercial and industrial use.
- **Long-Lasting Performance**
  High-quality construction provides durability and consistent performance over time.
- **Versatility**
  Suitable for various applications, from home wiring to large-scale industrial setups.

HOUSECAB™

Why Choose Us?

At Housecab Solutions Pvt. Ltd., we are committed to providing our customers with high-quality, reliable, and cost-effective cable solutions. Here's why we stand out as a preferred choice for your electrical and wiring needs:

Uncompromising Quality

At Housecab Solutions, we ensure the highest quality with strict testing and control, delivering durable, reliable and safe cables for all applications.

Wide Range of Products

Housecab Solutions offers a wide range of high-performance cables for residential, commercial and industrial needs, ensuring versatile solutions.

Expertise and Experience

With years of expertise, Housecab Solutions delivers high-performance, safe, andtailored cable solutions backed by skilled engineers.

Customer-Centric Approach

Housecab Solutions prioritizes customers, offering personalized solutions, exceptional service and ongoing support to meet your needs.

Competitive Pricing

Housecab Solutions offers cost-effective, high-quality products with competitive pricing, ensuring great value for both businesses and homeowners.

Reliability and Trust

Housecab Solutions delivers reliable, high-performance cables you can trust, ensuring safety, longevity and on-time delivery for all needs.

HOUSECAB™

Contact Us:

At Housecab Solutions Pvt. Ltd., we value every opportunity to connect with our customers and partners. Whether you have questions about our products, need technical support, or are looking to place an order, our team is here to assist you at every step. We pride ourselves on offering exceptional customer service and ensuring that your experience with us is seamless and satisfying.

For product inquiries, custom solutions, or technical assistance, please don't hesitate to reach out to us. Our knowledgeable team will provide you with the information you need to make informed decisions about our cables and wiring solutions. We also offer personalized consultations to help you choose the right products for your specific requirements, whether for residential, commercial, or industrial applications. You can contact us through any of the following channels:

Call us at
